

F O C U S O N T H E

One simple tool to change the way you view your life.

Focus on the 90%

Darci will ask one simple question throughout her humorous and thought-provoking presentation. Where do you focus your magnifying glass, on the 90% that is positive in your life or the 10% that is not?

How do you know where your focus is?

- What do you say about your job on the coffee break and at the end of the day?
- How do you interact with the 90% and the 10% at work?
- How do you feel about "serving" clients all day?
- How do you feel about yourself?
- What do you give to your family at the end of the day? Your 90% or your 10%?

The Presentation

Darci will challenge the audience with the fact that we do have a choice in how we view our lives. This idea of seeing the positives in their lives is something that we all know works. We know we should do it more but the ultimate challenge is ... are we doing it? And if we aren't, how can we start to see our lives in a more positive way?

Each audience member receives their own magnifying glass and a strong reminder that life is short and only they can choose how they live their life.

The Proof

"Each of us emerged from that connection motivated to make a positive change in our personal lives, in our workplace, and for our clients."

- Don Hawes, CEO
Vanguard Credit Union

"Darci is extremely upbeat and easy going, and we received such positive feedback, not even one 10%, that we are pleased to be offering another session with her in the fall of this year."
